3. Triggers:

By getting awareness to maintain their body fit. Seeing their neighbour using this to maintain balanced diet. Through internet, by seeing the feedback of others.

10. Your Solutions:

Existing solution takes time to identify the image. But this model takes less time than the existing one. It will also display the benefit of eating that fruit.

8. Channels of behaviour:

Online: It allows analysis software to detect nutritional contents without physical contact.

Offline: Traditional methods of nutritional therapy can be done via offline

4. Emotions:

BEFORE: Eating lot of food leads to many health issues. So they worry about their health, they become anxiety and fear.0 AFTER: Customer feels motivated while using this model to live a healthy life.
